

## CALL FOR PAPERS

### ENGINEERING IN INDUSTRIAL DESIGN

Dear friend,

The magazine *ELISAVA Temes de Disseny* dedicates its next issue 32 to “Engineering in Industrial Design”. *Temes de Disseny*, with over 25 years of history, is a scientific journal about aspects related to design and it has a new thoughtful critical perspective. International designers, architects, researchers and thinkers in every field in design and engineering have published here (for more details, visit <http://tdd.elisava.net>).

In this regard, a period for receipt of proposals in Engineering in Industrial Design reception is opened. These proposals have to be based on the subjects described in the attached document. They will be examined by the magazine’s Editorial Board, in charged of selecting those included as articles at issue 32 of the magazine *Temes de Disseny*.

We hope this field of study may be of interest to you so, consequently, we look forward to receiving your proposed articles.

Yours faithfully,

Dr. Albert Fuster  
Dr. Javier Peña  
Editors  
*ELISAVA Temes de Disseny*
